

MEDICAL HEALTH EXAMINATION

Keeping you and your entire family health through age – appropriate periodic exams based on internationally recognized protocols.

Age appropriate periodic exams play a very important role in maintaining and promoting health.

They are carried out in order to:

- Evaluate health statuses
- Screen for risk factors
- Provide preventive counseling and innervations in an age appropriate manner
- To prevent onset of disease or worsening of existing illness
- To educate patients on behavioral patterns or environmental exposures that pose risk for future disease.

PERIODIC HEALTH EXAM PACKAGES

Abii offers a variety of age appropriate periodic health exam packages that you can choose from depending on your sex and age. Depending on your medical history, the doctor may also recommend other tests in addition to those indicated. The pre-marital screen is recommended for intending couples.
